JORDAN LEEFLANG

ASSOCIATE | FURNITURE STUDIO

"I LIKE TO DESIGN PIECES THAT ARE VIBRANT AND PLAY WITH SHAPE AND PROPORTION. DURING MY ASSOCIATESHIP I WANT TO EXPERIMENT WITH MANY DIFFERENT MATERIALS AND PROCESSES, WITH THE AIM OF INCORPORATING THEM INTO WORK THAT IS BOTH FUNCTIONAL YET SCULPTURAL."

BIOGRAPHY

While studying a Bachelor of Interior Architecture at the University of South Australia, Jordan developed a keen interest in furniture and object design. After graduating he developed his skills further, studying Furniture Making at TAFE SA, and is continuing to expand his practice at JamFactory. Jordan aims to produce pieces that are considerate of their context and setting, with materials that are adaptable, allowing the same form to calmly fit into a space or to create a dramatic impact.
